Cllr	PT	Zuma

OFFICIALS:	Mr	BA	Xulu	(Municipal Manager)
	Mr	ME	Swanlow	(Chief Financial Officer)
	Ms	Z	Ngcobo	(Deputy Chief Financial Officer)
	Mr	IJM	Archer	(Manager Good Governance and Legal Compliance)
	Ms	SS	Masondo	(Manager Legal Services)
	Mr	EV	Mdlalose	(Supply Chain Manager)
	Mr	MR	Khoza	(Acting Manager Protection Services)
	Mr	MF	Maphanga	(Acting Manager Corporate Services)
	Ms	PLC	Robson	(Manager Committee Administration)
	Mrs	N	Mbhele	(Planning Manager)
	Mr	ZM	Chonco	(Housing Manager)
	Ms	AJ	Maharaj	(Committee Officer)

MINISTERIAL REPRESENTATIVE: Mr MM Sithole

APOLOGIES ACCEPTED:

Cllr	PR	Buss
Cllr	ZC	Ngema

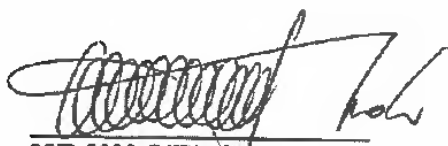

UMS 152 (1)

**ANNUAL BUDGET (OPERATING & CAPITAL) 2014/2015 FINANCIAL YEAR
(6/2/12)**

1. That a principle resolution be taken not to increase the rand rate age in terms of property rates.
2. That the Municipal Manager and his Management Team be task to review rates in terms of the National Treasury Circular 72 and to address the operating budget deficit.
3. That no movable assets be purchased during the 2014/2015 financial year, unless essential to the opinion of the Municipal Manager.
4. That Council review ward priorities, to be in line with National Priorities, prioritize all ward projects, taking the available funding of approximately R 6 million into account.
5. That the annual budget as tabled be made public in terms of section 22 of the MFMA.
6. That the Manager Legal Services in consultation with the management team, review all financial related policies, circulate it to all councillors to comment in writing to the Administrator before or on a date to be determined by the Administrator.
7. That all comments received in amending the financial policies, be considered to amend said policies and a final draft set of policies be placed on the council agenda at the next budget Council meeting.
8. That department SDBIP's be drafted and to be considered at the next Council Budget meeting.
9. That the process of aligning of the IDP and Budget be proceed with.

10. That the Administrator finalizes the staff establishment in term of the COGTA circular and taking Government Gazette 37245 dated 17 January 2014 into account.
11. That the budget tabled be referred back for further consideration, amendments and public consultation.
12. That Council considers the adoption of the 2014/2015 budget at least 30 days prior to the start of the new financial year.
13. The Chief Financial Officer,, Mr ME Swanlow informed the meeting as follows
 - 13.1 that the general valuation roll has been received and indicated that values of properties has increased by approximately 25% therefore he requested a principle decision to be taken that the rand rate age not be increased but rather to be recalculated to ensure that a small surplus be achieved taking cognizance of Circular 72 of the MFMA which requires municipalities to take the plight of the poor into account when setting rates and tariffs.
 - 13.2 That Council review all capital projects taking the NDF priorities into account and also to budget for service delivery projects and no movable assets be purchased unless of an extreme importance.
14. That the above-mentioned resolution was proposed by Cllr R Maharaj and seconded by Cllr SA Nzama.

I CERTIFY THAT THE FOREGOING IS A TRUE EXTRACT FROM THE MINUTES OF THE SPECIAL STATUTORY COMMITTEE MEETING HELD ON 31ST MARCH 2014

Part 1 – Annual Budget

1.1 Mayor's Report

Not available at date of printing

1.2 Council Resolutions

On 28th March 2014 the Council of Umvoti Local Municipality met in the Council Chambers of Umvoti 41 Bell Street to consider the annual budget of the municipality for the financial year 2014/15. The Council approved and adopted the following resolutions:

1. The Council of Umvoti Local Municipality, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts:
 - 1.1. The annual budget of the municipality for the financial year 2014/15 and single-year capital appropriations as set out in the following tables:
 - 1.1.1. Budgeted Financial Performance (revenue and expenditure by standard classification;
 - 1.1.2. Budgeted Financial Performance (revenue and expenditure by municipal vote)
 - 1.1.3. Budgeted Financial Performance (revenue by source and expenditure by type)
 - 1.1.4. Single-year capital appropriations by municipal vote and standard classification and associated funding by source
 - 1.2. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
 - 1.3.
 - 1.3.1. Budgeted Financial Position
 - 1.3.2. Budgeted Cash Flows as contained in Table 17
 - 1.3.3. Cash backed reserves and accumulated surplus reconciliation as contained in Table 18;
2. The Council of Umvoti Local Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2014:
 - 2.1. the tariffs for property rates
 - 2.2. the tariffs for electricity
 - 2.3. the tariffs for refuse removal
3. The Council of Umvoti Local Municipality, acting in terms of 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2014 the tariffs for other services as attached.

4. To give proper effect to the municipality's annual budget, the Council of Umvoti Local Municipality approves:
 - 4.1. That cash backing is implemented through the utilisation of a portion of the revenue generated from property rates to ensure that all capital reserves and provisions, and unspent conditional grants are cash backed as required in terms of the municipality's funding and reserves policy as prescribed by section 8 of the Municipal Budget and Reporting Regulations.
 - 4.2. That the municipality be permitted to enter into long-term loans for the funding of the capital programmes in respect of the 2014/15 financial year limited to an amount of R 56 million for electricity for the financial year of the MTREF in terms of Section 46 of the Municipal Finance Management Act.
 - 4.3. That the Municipal Manager be authorised to sign all necessary agreements and documents to give effect to the above lending programme.

1.3 Executive Summary

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on noncore and 'nice to have' items.

The Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. One such strategy is to conduct a meter sweep to ensure that all meters are functioning and that accurate accounts are sent out. This initiative has various challenges that need to be addressed urgently; some of them are the council's resolution not to proceed in the Township and also interfering in debt collection strategies. Another element that needs to be addressed urgently is the complete blocking of pre-paid sales to enhance revenue collections. Furthermore, the Municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 51, 54, 66, 67, 70 and 71 were used to guide the compilation of the 2013/14 MTREF.

The main challenges experienced during the compilation of the 2014/15 MTREF can be summarized as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained roads and electricity infrastructure;

- The need to reprioritize projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk electricity (due to tariff increases Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Additional staff request from management without any due diligent studies being conducted and the establishment of a security and disaster section.
- Affordability of capital projects – original allocations had to be reduced and the operational expenditure associated with prior year's capital investments needed to be factored into the budget as part of the 2014/15 MTREF process; and
- Availability of affordable capital/borrowing.
- The restructuring of the organization.
- Obtaining council resolutions as there is a continuous walk out by councilors.
- Poor prioritization of projects.

The following budget principles and guidelines directly informed the compilation of the 2014/15 MTREF:

- The 2013/14 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as the upper limits for the new baselines for the 2014/15 annual budget;
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;
- An upper limit of R6,4 million was set for the following items and allocations to these items had to be supported by a list and/or motivation setting out the intention and cost of the expenditure which was used to prioritise expenditures:
 - Consultant Fees;
 - Furniture and office equipment;
 - Refreshments and entertainment;
 - Ad-hoc travelling; and
 - Subsistence, Travelling & Conference fees

In view of the aforementioned, the following table is a consolidated overview of the proposed 2014/15 Medium-term Revenue and Expenditure Framework:

Table 1 Consolidated Overview of the 2014/15 MTREF

Description	Current Year 2013/14		2014/15 Medium Term Revenue & Expenditure Framework		
	Original Budget	Adjustments Budget	Budget Year 2014/15	Budget Year +1 2015/16	Budget Year +2 2016/17
R Thousands					
Total Operating Revenue	157 851	162 995	164 420	191 431	200 775
Total Operating Expenditure	175 908	177 229	184 968	199 415	203 871
Surplus/(Deficit) of the Year	-18 056	-14 234	-20 548	-7 983	-3 095
Total Capital Expenditure	28 485	36 741	67 512	69 520	82 002

Total operating revenue has grown by 0.9 per cent or R1.4 million for the 2014/15 financial year when compared to the 2013/14 Adjustments Budget. For the two outer years, operational revenue will increase by 5.4 per cent respectively, equating to a total revenue growth of R36.4 million over the MTREF when compared to the 2013/14 financial year.

Total operating expenditure for the 2014/15 financial year has been appropriated at 184.9 million and translates into a budgeted deficit of R20.5 million. When compared to the 2013/14 Adjustments Budget, Operational expenditure has grown by 4.4 per cent in the 2014/15 budget and by 7.8 and 2.2 per cent respectively for the outer years of the MTREF.

The operating deficit for the ensuing year amounts to R20.5 million and decreases steadily in the two outer years to R7.9 million and 3 million respectively by 2016/17. The budget deficit in 2014/15 can be attributed to the budgeted depreciation of R21.5 million and Debt impairment contribution of R4.3 million; these are non-cash items that need to be factored on the tariff of charges.

Strategies need to be put in place to move to a positive situation and expenditure need to be focused on essential items. The main section contribution to the deficits being experienced is the Protection Services Department as more than 50% of own revenue is being used to finance this section. As no surplus is available the capital expenditure will be funded from the available accumulated surplus currently amounting to R30 Million. This is not sustainable and measures would need to be put in place so that capital can be funded from surplus derived in that year. The current adjustment budget shows that a deficit of R14 million will result by the end of the financial year and to continue budgeting for a deficit is not healthy.

The capital budget of R67.5 million for 2014/15 is 79.87 per cent more when compared to the 2013/14 Adjustment Budget. This budget is currently unrealistic and would have to be reduced. The capital programmes are only 50% funded, a substantial portion of the capital budget will be funded from MIG allocation of R25.5 million, INEP of R12 million and 6 million can be afforded by the municipality as internal funding. Should the rate of expenditure on operations not be reduced we would not be able to execute the 35 percent (R24 million) required from the 2014/15 capital expenditure budget.

Greytown is to form part of the small town rehabilitation and although acceptance has been provided by CoGTA, no funding has been appropriated in this budget. Once the value of funding has been gazzetted, the funds will be appropriated through an adjustment budget.

1.4 Operating Revenue Framework

For Umvoti Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of the municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure a 90 per cent annual collection rate for property rates and other key service charges;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Municipality.

The following table is a summary of the 2014/15 MTREF (classified by main revenue source):

Total Revenue (excluding capital transfers and contributions)	157 852	162 995	■ ■ ■	192 761	202 395	1.4%	16.6%	5.0%

Revenue generated from Electricity services charges forms a significant percentage of the revenue basket of Umvoti Municipality. Electricity service charges revenue comprise of 34 percent (R56.5 million) of the total Operating revenue for the 2014/15 budget year, followed by

Property rates contributing 14 percent (R22.6 million) towards the total Operating budget and Refuse Removal contributes only 4 percent (R6.3 million). The trading services and Property services combined contribute 52 percent towards the total revenue mix.

The 'Other revenue' constitute only 8 percent towards total Operating Revenue, which consists of various items such as income received from permits and licenses, building plan fees, connection fees, transport fees and advertisement fees. Departments have been urged to review the tariffs of these items on an annual basis to ensure they are cost reflective and market related.

Operational Grants Transfers amounts to R66.4 million and contributes 40 percent towards the Operating Revenue budget in 2013/14. The Transfers increases to R87.3 million in 2015/16 and R91.3 million in 2016/17. The following table gives a breakdown of the various grants and subsidies allocated to the municipality over the medium term.

The Provincial Government Grants breakdown is as follows as per Provincial Gazette No.1115 allocations for the 2013/14 budget year

- Community Library Services R126 000
- Museum Subsidy R299 000
- Provincialisation of Libraries R835 000

1.4.1 Property Rates

Determining the effective property rate tariff is an integral part of the municipality's budgeting process.

Umvoti Municipality undertook a general valuation and compilation of the new valuation roll as required by Municipal Property Rates Act to be effective from 1 July 2014. The valuation of properties has increased by a billion rand.

Due to the significant increase in property values, it is recommended that Rates randages remain as per the 2013/14 randages in order relieve rate payers on the major burden that will arise as a result of the increase in property values. Council is requested to task the administration to explore ways of bridging the gap between the Property rates tariff increase required by the municipality and affordability of the consumers.

Rates exemptions and rebates are consistent with the Municipal Property rates and the Rates Randages complies with the CoGTA recommended ratios.

The categories of rate-able properties for purposes of levying rates and the proposed rates for the 2014/15 financial year are as follows:

Table 5 Comparison of proposed rates to levied for the 2014/15 financial year

Category	Current Tariff cents in the Rand (1 July 2013)	Proposed tariff cents in the Rand (from 1 July 2014)
	C	C
Residential properties	1,37	1,37
Sectional Title	1,37	1,37
Business & Commercial	2,03	2,03
Industrial	1,37	1,37
Agricultural	0,34	0 34
Communal	0,34	0,34
Institutional	1,37	1,37
National Monuments	1,37	1,37
Municipal	1,37	1,37
Public Benefit Organizations	0,34	0,34
Public Service Infrastructure	0,34	0,34
Special Purpose	1,37	1,37
State owned	2,03	2,03
Place of Worship	1,37	1,37
Properties leased by the Municipality	1,37	1,37

1.4.2 Sale of Electricity and Impact of Tariff Increases

NERSA has approved a 7.39 per cent guideline tariff increase and an 8 percent increase in the cost of bulk purchases for the 2014/15 budget and the MTREF.

Registered indigents will again be granted 50 kWh per 30-day period free of charge.

The following table shows the impact of the proposed increases in electricity tariffs charges:

Table 6 Comparison of proposed tariffs to levied for the 2013/14 financial year

NERSA APPROVED CATEGORIES OF ELECTRICITY TARIFFS UMVOTI MUNICIPALITY					
DOMESTIC TARIFFS					
		2013/2014	% increase		2014/2015
Domestic option 1	energy charge per kwh	103.79	7.39		111.460
Basic charge	amperage charge per amp per meter	4.05	7.39		4.35
Domestic option 2 (no basic charge)	energy charge per kwh (no basic charge)	141.16	7.39		151.59
Pre paid indigent	energy charge per kwh	85.98	7.39		92.33
Pre paid non indigent	energy charge per kwh	135.32	7.39		146.32

Commercial or industrial use per month	availability charge	162.86	7.39		174.90
INDUSTRIAL TARIFFS					
Large power users with installed capacity of in excess of 65 kva					
Basic charge	basic charge per month	1179.14	7.39		1266.28
Energy charge	energy charge per kwh	72.14	7.39		77.47
Demand charge	demand charge per KVA	158.72	7.39		170.45

1.4.3 Waste Removal and Impact of Tariff Increases

Currently solid waste removal is operating at a deficit. It is widely accepted that the rendering of this service should at least break even, which is currently not the case.

The below tables indicate the actual and budgeted financial performance of the Waste Management on the 7 year budget horizon.

Table 7: Waste Management Performance

Description R thousand	2010/11	2011/12	2012/13	Current Year 2013/14		2014/15 Medium Term Revenue & Expenditure Framework		
	Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Budget Year 2012/13	Budget Year +1 2013/14	Budget Year +2 2014/15
Waste Management - Revenue	7 017	7 718	■ ■ ■	5 975	5 975	6 274	6 596	6 952
Waste Management - Expenditure	(11 236)	(10 442)	(9 714)	(9 533)	(9 533)	(8 369)	(12 889)	(12 889)
Surplus/(Deficit)	(4 220)	(2 729)	(1 224)	(15 506)	(15 508)	(14 643)	(19 404)	(19 841)

The Municipality will have to implement a solid waste strategy to ensure that this service can be rendered in a sustainable manner over the medium to long-term. The main contributors to this deficit are repairs and maintenance on vehicles, increases in general expenditure such as petrol and diesel and the cost of remuneration as well as transporting of waste to Pietermaritzburg.

Considering the deficit, it is recommended that a comprehensive investigation into the cost structure of solid waste function be undertaken, and that this include investigating alternative service delivery models.

Council is requested to task the administration in exploring ways of enhancing the waste management towards operating at breakeven.

Refuse Removal tariffs were increase at 6 per cent which is consistent with the CPIX index of 6.2 per cent as outlined in MFMA circular N.72.

The following table compares current and proposed amounts payable from 1 July 2014:

Table 8 Comparison between current waste removal fees and increases

Tariff Type	2013/14 Current Tariffs	2014/15 Proposed Tariffs	Difference	Tariff Increase Percentage
Refuse Domestic	95	100.3	5.3	6%
Refuse Commercial	258.8	273.3	14.5	6%
Refuse Other	350.7	370.3	19.6	6%

1.5 Operating Expenditure Framework

The following table is a high level summary of the 2014/15 budget and MTREF (classified per main type of operating expenditure):

Table 9 Summary of operating expenditure by standard classification item

The budgeted allocation for employee related costs for the 2013/14 financial year totals R71.8 million, which equals 38.8 per cent of the total operating expenditure. Based on the three year collective SALGBC agreement, salary increases have been factored into this budget at a percentage increase of 6.79% per cent for the 2014/15 financial year.

An annual increase of 6.40 per cent has been included in the two outer years of the MTREF. The staff cost is rapidly on the increase as new post are proposed on a continual basis without any due diligent studies being conducted. Serious attention should be given to restructuring the organization to ensure that we can concentrate on core functions and better service delivery.

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget.

The provision of debt impairment was determined based on an annual collection rate of 80 per cent and the Debt Write-off Policy of the Municipality. For the 2014/15 financial year this amount equates to R4.3 million and escalates to R7.8 million in 2015/16 and drops to R413 000 in 2016/17. The decrease in 2016/17 is a result of planned improvements in in credit and debt collection processes, where historical debt estimated at R3.5 million should be written off as irrevocable debt.

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation has been allocated at R21.5 million in 2014/15, which amounts to 4 per cent of the total budgeted Property Plant and Equipment in budget table A6.

Bulk purchases are directly informed by the purchase of electricity from Eskom, which as per NERSA recommendation, has been increased by 8 percent.

Other materials comprise of amongst others the purchase of fuel, diesel, materials for maintenance, cleaning materials and chemicals.

Contracted services in 2014/15 have decreased by 45.5 per cent as compared to the 2013/14 budget year. The municipality is moving away from heavy reliance on consultants and processes will be conducted in-house.

Other expenditure comprises of various line items relating to the daily operations of the municipality. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved. As a result of this, the Other expenditure is budgeted to decrease by 30 per cent in 2014/15 and increase by 5 per cent in the outer years.

The following table gives a breakdown of the main expenditure categories for the 2014/15 financial year.

Figure 1 Main operational expenditure categories for the 2014/15 financial year

1.5.1 Priority given to repairs and maintenance

Although ample budget provision is made for the repairing and maintaining of the municipal infrastructure assets the department concerned is not spending significantly on this urgent priority. Measures need to be put in place for the monitoring and maintaining of assets as renewing these assets will result in an additional burden to the Municipality.

1.5.2 Free Basic Services: Basic Social Services Package

The social package assists households that are poor or face other circumstances that limit their ability to pay for services. To receive these free services the households are required to register in terms of the Municipality's Indigent Policy. The community of Umvoti is reluctant to register as they feel that this attaches a stigma to them. Educational programs need to be developed to encourage the indigent to register.

The cost of the social package of the registered indigent households is largely financed by national government through the local government equitable share received in terms of the annual Division of Revenue Act.

1.6 Capital expenditure

The following table provides a breakdown of budgeted capital expenditure by vote:

Table 10 2014/15 Medium-term capital budget per vote

Vote Description	Ref	2010/11	2011/12	2012/13	Current Year 2013/14			2014/15 Medium Term Revenue & Expenditure Framework

The capital budget of R67.5 million for 2014/15 is 79.87 per cent more when compared to the 2013/14 Adjustment Budget. This budget is currently unrealistic and would have to be reduced. The capital programmes are only 50% funded, a substantial portion of the capital budget will be funded from MIG allocation of R25.5 million, INEP of R12 million and 6 million can be afforded by the municipality as internal funding. Should the rate of expenditure on operations not be reduced we would not be able to execute the 35 percent (R24 million) required from the 2014/15 capital expenditure budget.

1.7 Annual Budget Tables

The following eighteen pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2014/15 budget and MTREF as approved by the Council. Each table is accompanied by explanatory notes on the facing page.

- The above table indicate that the municipality has budgeted for a deficit of R9.3 million in 2014/15, escalates to R13.3 million in 2015/16 and decrease to R10.3 million in 2016/17
- The deficit is caused by that the budgeted operating expenditure exceeds the budgeted revenue to be generated. This results in the municipal reserves to be depleted.

- The municipality has a capital expenditure budget of R67.5 million in 2014/15, which is budgeted to be funded by R37.5 million from National grants and by R30 million from internal funding.
- The R30 million internal funding is not affordable and the budget needs to be downsized to reflect a budget that can be realistically funded.

The below table indicates the breakdown of each item budgeted from each municipal function:

Capital Expenditure Break down: 2014/15	
Council	
Item	Amount
Club House Polo Cross	155000
Extension Of Council Chamber	850000
Urn	5000
Council Chamber Chairs	20000
Water Dispenser	5000

Cash/cash equivalents at the year begin:	2	40 232	48 361	64 316	46 597	48 519	48 519	48 519	48 597	15 886	21 812
Cash/cash equivalents at the year end:	2	48 361	64 316	48 519	339 760	45 545	45 545	46 519	15 885	21 812	24 674

- The above table indicates the effects on the municipality's Cash flow on the implementation of the budgeted Operating expenditure, capital expenditure and revenue to be collected.

Collection rate of 80 percent was used to estimate the collectable revenue from the billed revenue on budget table A4.

- In 2014/15 it shows that the cash held will decrease by R30 million due to that the budgeted expenditure exceeds the cash to be received. Expenditure needs to be downsized in order to protect municipal reserves.

Table 18 MBRR Table A8 – Cash Backed Reserves/Accumulated Surplus Reconciliation

2.2 Overview of budget related-policies

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

2.2.1 Review of credit control and debt collection procedures/policies

The Collection Policy as approved by Council is currently under review. While the adopted policy is credible, sustainable, manageable and informed by affordability and value for money there has been a need to review certain components to achieve a higher collection rate. Some of the possible revisions will include the lowering of the credit periods for the down payment of debt. In addition emphasis will be placed on speeding up the indigent registration process to ensure that credit control and debt collection efforts are not fruitlessly wasted on these debtors.

As most of the indigents within the municipal area are unable to pay for municipal services because they are unemployed, the Integrated Indigent Exit Programme aims to link the registered indigent households to development, skills and job opportunities. The programme also seeks to ensure that all departments as well as external role players are actively involved in the reduction of the number of registered indigent households.

The 2013/14 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 80 per cent on current billings. In addition the collection of debt in excess of 90 days has been prioritised as a pertinent strategy in increasing the Municipality's cash levels. In addition, the potential of a payment incentive scheme is being investigated and if found to be viable will be incorporated into the policy.

2.2.2 Asset Management, Infrastructure Investment and Funding Policy

A proxy for asset consumption can be considered the level of depreciation each asset incurs on an annual basis. Preserving the investment in existing infrastructure needs to be considered a significant strategy in ensuring the future sustainability of infrastructure and the Municipality's revenue base. Within the framework, the need for asset renewal was considered a priority and hence the capital programme was determined based on renewal of current assets versus new asset construction.

Further, continued improvements in technology generally allows many assets to be renewed at a lesser 'real' cost than the original construction cost. Therefore, it is considered prudent to allow for a slightly lesser continual level of annual renewal than the average annual depreciation. The Asset Management, Infrastructure and Funding Policy is therefore considered a strategic guide in ensuring a sustainable approach to asset renewal, repairs and maintenance and is utilised as a guide to the selection and prioritisation of individual capital projects. In addition the policy prescribes the accounting and administrative policies and procedures relating to property, plant and equipment (fixed assets).

2.2.3 Budget Adjustment Policy

The adjustments budget process is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the financial management practices of municipalities. To ensure that the Municipality continues to deliver on its core mandate and achieves its developmental goals, the mid-year review and

adjustment budget process will be utilised to ensure that underperforming functions are identified and funds redirected to performing functions.

2.2.4 Supply Chain Management Policy

The Supply Chain Management Policy was adopted by Council. An amended policy will be considered by Council in due course of which the amendments will be extensively consulted on.

2.2.5 Budget and Virement Policy

The Budget and Virement Policy aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA and the Municipality's system of delegations. The Budget and Virement Policy was approved by Council and was amended soon in respect of both Operating and Capital Budget Fund Transfers.

2.2.6 Cash Management and Investment Policy

The Municipality's Cash Management and Investment Policy is to be amended by Council. The aim of the policy is to ensure that the Municipality's surplus cash and investments are adequately managed, especially the funds set aside for the cash backing of certain reserves. The policy details the minimum cash and cash equivalents required at any point in time and introduces time frames to achieve certain benchmarks.

2.2.7 Tariff Policies

The Municipality's tariff policies provide a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery. The policies have been approved on various dates and a consolidated tariff policy is envisaged to be compiled for ease of administration and implementation of the next two years.

All the above policies will be available on the Municipality's website, as well as the following budget related policies:

- Property Rates Policy;
- Funding and Reserves Policy;
- Borrowing Policy;
- Budget Policy, and
- Basic Social Services Package (Indigent Policy).

Table 22-2014/15 Municipal Tariffs

UMVOTI MUNICIPALITY		
TARRIF OF CHARGES		
1. PUBLIC WORKS (Subject to an exclusive of VAT)	2013/2014	2014/2015
1.1 REFUSE REMOVAL SERVICES	Tariffs	Tariffs
